

## NOTICE

# South Hazelton Water System Standing Boil Water Advisory Rescinded

It is our pleasure to advise you that the South Hazelton water system upgrade has been completed and the Northern Health Authority has approved the removal of the Boil Water Advisory.

Final contract requirements are finished and the water treatment facility is now operational. The South Hazelton water quality has been good for a number of months and we will continue to monitor.

The Regional District plans on hosting an Open House in the coming months to present a summary of the project and outline the future operations including the financial component of the service. Details of the Open House will be confirmed through a newsletter.

The District of New Hazelton operates the South Hazelton Water System on behalf of the Regional District and they should be contacted if you have any questions or concerns regarding:

- 1) Water pressure and water quality.
- 2) Lack of water and evident leaks.
- 3) Emergency Water Service Shut Offs.

**District of New Hazelton – Phone: 250-842-6571**

### AFTER HOUR EMERGENCY

**Phone: 250-842-6571 and press “1” to be connected to answering service.**

The Regional District should be contacted for requests and inquiries regarding:

- 1) Scheduled Water Service Shut Offs and Water Service Turn Ons.
- 2) Billing, water rates and regulations.
- 3) New connections to water systems such as a newly created lot or a lot that has never been connected to the water system.

**Regional District of Kitimat Stikine – Toll Free: 1-800-663-6268 (8:30 am – 4:30 pm)**

Your ongoing cooperation and understanding through this 4 year construction project and transition from the South Hazelton Waterworks District has been appreciated. Thank you.
